The Assignee, Novell, Inc., a corporation of the State of Delaware, having a principal place of business at 122 East 1700 South, Provo, Utah 84606-6194, desires more clearly to secure the entire right, title and interest in all the inventions. In consideration of \$1.00 and other good and valuable consideration paid to us by the Assignee, the receipt and sufficiency of which we hereby acknowledge, and with

no reliance on any promise or representation made to us by or on behalf of the Assignee, WE HEREBY ASSIGN TO THE ASSIGNEE:

The entire right, title and interest in all the inventions (including subject matter disclosed but not claimed), all copyright and trade secret rights in embodiments or designs for the inventions or any portion thereof, all rights in the above-identified United States patent applications and in all divisions, continuations and continuations-in-part of the applications, or reissues or extensions of Letters Patent or Patents granted thereon, including all applications specifically identified by number herein and all applications for which any present application claims a benefit or is claimed for benefit under 35 U.S.C. § 119 or § 120, and in all corresponding applications filed in countries foreign to the United States, and in all patents issuing thereon in the United States and foreign countries.

The right to file foreign patent applications on any or all of the inventions in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.

We hereby authorize the Assignee to file patent or copyright applications on any or all of the inventions in any country in its own name or otherwise as the Assignee sees fit. We hereby authorize and request the United States Commissioner of Patents and Trademarks, and other intellectual property officials in this and foreign countries as are duly authorized by their laws to issue patents or copyright registrations, to issue any and all patents and registrations on any or all of the inventions to the Assignee as the owner of the entire interest, for the sole use and benefit of the Assignee, its successors, assigns and legal representatives.

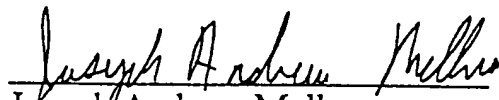

We hereby agree, without further consideration and without expense to us, to sign all lawful papers and to perform all other lawful acts which the Assignee may request of us to make this Assignment & Agreement fully effective, including, by way of example but not of limitation, the following:

Prompt execution of all original, divisional, substitute, reissue, and other United States and foreign patent and copyright applications on any or all of the inventions, and all lawful documents requested by the Assignee to further the prosecution of any of such applications.

Cooperation to the best of our ability in the execution of all lawful documents, the production of evidence, nullification, reissue, extension, or infringement or interference or other legal proceedings involving any or all of the inventions; faithful communication to the Assignee of all facts known to us relating to any or all of the inventions and the history thereof; and generally, taking all reasonable steps which the Assignee shall request to aid in securing, maintaining, and enforcing protection for any or all of the inventions and to vest title in the Assignee to all the inventions and all applications, patents, copyrights, and trade secrets based on any or all of the inventions.

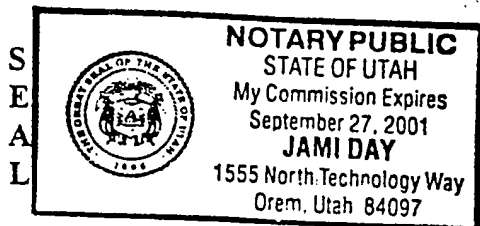

This Assignment & Agreement is effective no later than the earliest patent application filing date noted above. It is not intended to supersede, supplant, rescind, or waive any right, title or interest conveyed to Assignee by us, under any prior conveyance, agreement, or operation of law, including without restriction rights created or conveyed by virtue of our employment by the Assignee. It is not conditioned or based on any future act to be performed by the Assignee.

This Assignment & Agreement may be executed in duplicate counterparts, each of which shall be deemed an original, all of which together are one and the same instrument. We warrant that to the best of our knowledge each of our contributions to the inventions does not and will not infringe anyone's rights. This Assignment & Agreement is governed by the laws of the United States and the State of Utah, and any dispute arising from it will be heard in Utah. Even if part of this Assignment & Agreement is found unenforceable, the remaining parts are enforceable. A failure to exercise rights under this Assignment & Agreement does not mean those rights are waived. This Assignment & Agreement shall be binding upon our heirs and legal representatives.

PATENT APPLICATION
Docket No.: 1909.2.74A

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: Joseph Andrew Mellmer et al.
Serial No.: 09/670,783
Filed: September 27, 2000
For: MANAGING DIGITAL IDENTITY INFORMATION

DECLARATION OF JOHN W.L. OGILVIE
(Petition Exhibit C)

I, John W.L. Ogilvie, do hereby depose and say as follows:

1. I am a Registered Patent Attorney (Reg. No. 37,987) employed by the patent law firm Computer Law++, which represents Novell, Inc. ("Novell") in prosecution of the above-identified application.
2. Robert Michael Sheridan was an employee of Novell and is an inventor of the claimed invention. In particular, Mr. Sheridan signed an Assignment and Agreement which states in part "We ..., Robert Michael Sheridan, of 11904 Proffitt Estates Ct., Oak Hill, VA 20171, ... have invented methods, systems, signals, and devices for MANAGING DIGITAL IDENTITY INFORMATION, hereinafter called the 'inventions'." The Assignment and Agreement is recorded in the Office at Reel 010906 on 25 frames beginning at Frame 0679, and a copy is enclosed as Exhibit B of the enclosed Petition.
3. On September 11, 2000 at about 2 PM Mountain Standard Time, I called Mr. Sheridan's office phone number 703-860-4648, which was provided to me by Novell. I heard a recorded greeting which identified the number as belonging to Mr. Sheridan. I left a voicemail message asking Mr. Sheridan to call me at my office.
4. On September 12, 2000 at about 2 PM Mountain Standard Time, I again called Mr. Sheridan's office phone number, and left a voicemail message stating that we would like his input regarding the application.
5. On September 12, 2000, I also sent a package of documents to Mr. Sheridan by Federal Express courier service. The package included a cover letter, a copy of the patent application, a summary of legal requirements for patents, an assignment to

Novell, and a declaration & power of attorney. The cover letter requested Mr. Sheridan's participation, and asked him in any case to return all copies of the patent application, declaration, and assignment to me no later than September 27, 2000. The cover letter also indicated that the application filing would proceed without Mr. Sheridan unless I heard from him by September 27, 2000. The package was delivered by Federal Express to Mr. Sheridan's last known address on September 13, 2000; a copy of the Federal Express airbill and a Federal Express proof of delivery are attached as Exhibit D of the enclosed Petition.

6. Having received no response, on September 19, 2000 at about 1:30 PM Mountain Standard Time, I again called Mr. Sheridan's office phone number. I left a voicemail message asking Mr. Sheridan to call me at my office. I also stated that we would proceed without him if necessary, and informed him that the package of application documents had been delivered to 11904 Proffitt Estates Court in Oak Hill Virginia on September 13th.

7. I did not hear from Mr. Sheridan by September 27, 2000. Indeed, I have not received any letter, email, phone message, delivery, or other communication from Mr. Sheridan since my first message to him on September 11, 2000. In particular, I have not received the application, assignment, declaration, or any other document from him since that date.

8. Failure to grant this application status under 37 C.F.R. § 1.47(a) will cause irreparable damage to Novell.

9. The last known mailing address of Mr. Sheridan is:

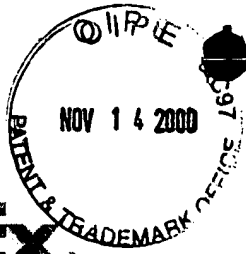

Robert Michael Sheridan
11904 Proffitt Estates Court
Oak Hill, Virginia 201714

10. I further declare that all statements made herein of my own knowledge are true, and that all statements made herein on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Signed at Salt Lake City, Utah, this November 14, 2000.

John W.L. Ogilvie
